

LONGSHOREMEN THREATEN TO SPREAD STRIKE

Expect to Tie Up Every Port in United States

WOMEN PICKETS INSPIRE STRIKERS

NEW YORK, Aug. 27.—Elated by their tie-up of virtually every British ship in New York, the 2,000 or more longshoremen who quit work today expect to spread their walkout to every port in the United States in the hope of forcing Great Britain to release from jail Terrence MacSweeney, lord mayor of Cork and permit Archbishop Mannix to land on Irish soil. The women pickets who inspired the unexpected walkout of longshoremen and the marine firemen, water tenders and others who joined them, feel the same way about it.

Sympathizers Also Quit. Irish sympathizers working on American, French and Belgian steamships also quit work during the whirlwind campaign the strikers waged along the North River this afternoon.

A little band of women pickets inspired the strike during the noon lunch hour. They stationed themselves outside the White Star line pier in the morning, to await the arrival of the Baltic, from which Archbishop Mannix was removed on that ship's last voyage to Ireland and England. When the Baltic docked the women held up a placard reading: "When Mannix goes to Ireland let the Baltic leave New York."

and display other banners referring to Mannix, Lloyd George and MacSweeney. During the lunch hour the longshoremen who had started work on the Baltic decided not to go back, and accompanied by the women pickets, they went into the holds of nearby liners, Canopic, Olympic and Celtic where they quickly induced hundreds of other longshoremen and allied workers to join them.

Forming outside the White Star line pier inside of the wharf were officials calling for police reserves, the strikers began a parade that swept up West street, engulfing hundreds of longshoremen at the docks of the Cunard anchor and other British lines and leaving it its wake more than a dozen steamships with loading schedules badly disrupted.

Overton Given Strikers. An overton greeted 100 striking members of the Baltic's crew when they marched into a theater tonight where a mass meeting protesting MacSweeney's imprisonment was in progress. The gathering was addressed by Frank P. Walsh, and Eamon de Valera, "president of the Irish Republic."

Walsh said 3,000 more men would quit work for British shipping here in the fight for Ireland. With the cold blooded assassination of MacSweeney will come about the downfall of England," said Walsh. "MacSweeney does not want to die," said de Valera, "but he knows that on his fortitude and determination more depends for Ireland, than the fate of an army corps."

A resolution was adopted congratulating MacSweeney on his opportunity to win a moral victory that would be heard around the world.

O'GRADY SENDS STRONG LETTER

LONDON, Aug. 27.—Premier Lloyd George at Lucerne is being bombarded with appeals in behalf of Terrence MacSweeney, Lord Mayor of Cork, who is on a hunger strike in prison here.

The general tenor of the appeal is that a show of clemency in this case will open the gate for reconciliation with Ireland, while a refusal would have the opposite effect. A strongly worded letter from James O'Grady of the house of commons also has been received.

The test of your sincerity in describing a reconciliation is unconditional," says Mr. O'Grady's letter. "Release MacSweeney. If you refuse this then he is damned to you and your government."

Timothy Healy, former member of parliament in a letter to the Dublin press angrily accuses Lloyd George of overriding the king's desire to show clemency.

MacSweeney's condition was unchanged tonight. He was very weak and one of his relatives remained constantly at his bedside.

HOPES WILL LIVE UP TO THEIR OBLIGATIONS

MARION, O., Aug. 27.—Ratification of the suffrage amendment was celebrated at Senator Harding's front porch tonight at the meeting in which the Republican nominee and several scores of Marion women took part.

The senator expressed his pleasure at the success of the suffrage cause and told the women he had every confidence they would live up fully to their new obligations. He also urged there be no segregation of women in a party founded on sex prejudice.

To Talk on League. Tomorrow's address elaborating on his stand on the League of Nations is expected to be one of the senator's most important of the campaign and it has been prepared with great care. While it was being formulated it conferred with a number of those who have been active in the league fight and was supplied with detailed information of the present attitude of the European powers toward the league project.

Today brief calls were made by Henry P. Davison, of the Morgan Banking House, Fred Underwood, president of the Erie Railway, and Gutson Borglum, the sculptor who figured prominently in the aircraft investigation of some months ago. All of them declined to say what issues they discussed with Senator Harding.

Suffrage Meeting. At the suffrage celebration tonight short speeches were made by Senator Harding, Colonel Harvey, former Senator Sutherland of Utah, and Charles Warren, of Michigan. Colonel Harvey described himself as the "one, lonely Democrat left east of the Alleghenies" and called on his "sister Democrats" to vote for Harding.

The nominee told the women he believed they would vote according to principle and conviction rather than prejudice and would not be unduly influenced by the argument that it was a Democratic state which completed ratification.

BELIEVES SOCIALISTS BACKED BY BOLSHIEVIKI

CHICAGO, Aug. 27.—James M. Miller, former United States consul general to New Zealand tonight sent a letter to Chairman Kenyon of the senate campaign investigating committee asking it to look into the campaign finances and methods of the minor political parties.

The Socialist party is raising a fund larger than ever before, said the letter in part and the non-partisan league is raising enormous sums for propaganda and campaign purposes and the Farmer-Labor Party is also raising a campaign fund.

The Socialists are great schemers and it has been persistently reported that they are financed by the bolsheviks in Russia.

Mr. Miller's letter also asked that betting on the elections be investigated, charging that the major parties deliberately try to "influence votes by betting."

Socialists at national headquarters tonight refused to comment on the letter.

POLES CONTINUE STEADY ADVANCE AGAINST ENEMY

Red Commanders Fail to Instill Troops With Courage

BOLSHEVIKI BATTERIES ON GERMAN SOIL

PARIS, Aug. 27.—The Poles continue to advance along the East Prussian frontier. Red commanders have failed to instill in their troops enough courage or energy to resist the Poles, who took possession of the Osovetz marshes and reached the Augustowo-Lakes east of the Prussian frontier, thus gaining command of the woods on the southern side of the frontier as far as Augustowo.

The Reds driving back on the line of the Augustowo-Grodno are in a good defensive position on account of the forests and marshes. Consequently it is difficult for the Poles to attack frontally. The soviet forces are concentrating with the object of stopping the Poles from extending their line eastward.

For this purpose the Augustowo-Grodno constitutes a flank position so highly extolled by the late Karl Von Clausewitz, the German master of theoretical warfare.

Little Chance of Success. This danger is not considered a serious one in military circles here. The military observers assert it is hard to see with what success the soviets could be formed for a mass maneuver. They say the bolsheviks at present have available 30,000 to 40,000 men but that little can be expected from the interior of Russia where mutinies are already reported among the troops ordered to the front.

On German Soil. Paris, Aug. 27.—Bolshevik batteries stationed on German soil have fired on Polish troops, says a Polish Communiqué of yesterday. The text adds:

"On the northern front the situation is unchanged. We made 3,000 prisoners, stragglers from remnants of the bolshevik troops. In the center there remain a few thousand Russian troops who are retreating toward the German frontier, fighting desperately."

In Kobryn Pass we took 1,100 prisoners, including the full staff of the bolshevik 37th division. On the southern front bitter fighting is in progress."

SAYS HAS BEEN USED FOR ADVERTISING

Britten of Illinois tonight was subpoenaed by the senate campaign investigating committee to appear Monday with proof of his charges made a few days ago that \$87,500 appropriated by Great Britain for entertainment purposes at the embassy in Washington had "found its way into the Democratic national committee."

Congressman Britten tonight said he would gladly furnish evidence in support of his statement. "If the senate committee will inquire in the right direction, I am convinced that it will find that most of all this \$87,500 for 'entertainment purposes has been going into newspaper and magazine publicity for the Democrats."

"The appropriation was not really intended for entertainment but to further the league of nations and the Democrats—in other words to help Great Britain in this way."

SCHWAB ANNOUNCES NEW SHIP ENGINE

Product of American Inventive Skill—Europe Has Been Using Idea for Number of Years.

NEW YORK, Aug. 27.—Development of a new two-cycle internal combustion engine, adapted for ships as well as stationary purposes was announced today by Charles M. Schwab. The engine, it was said, is the product of American inventive skill and has been given a successful trial on an ore carrying ship of the Bethlehem Steel corporation.

In announcing it, Mr. Schwab said: "For the first time a two-cycle internal combustion heavy oil engine has been perfected which produces the same horse-power as a four cycle engine practically twice its size. It is not a new idea. For years Europeans have successfully operated large ships with Diesel engines. This achievement is the adaptation of the two cycle engine to American operation and in the perfection for practical use in cargo vessels of any size."

GOVERNOR COX BELIEVES HE HAS PROVED CHARGES

Candidate Still Talking About Slush Fund

WILL NOT ATTEMPT TO MATCH DOLLARS

NEW HAVEN, Conn. Aug. 27.—Attack on Republican campaign contributions was renewed here today by Governor Cox in a number of addresses opening his New England campaign.

That he has proven his charges in his Pittsburgh address of the assembling of a \$15,000,000 "corruption fund" by the Republicans was asserted by Governor Cox and he also declared he would continue "rubbing that sore spot" until election day. He withheld, however, any further evidence in support of his charges.

Tells of First Break. "The first break in the Republican line," Governor Cox declared, during the course of four speeches here was the Republican proposal for a separate peace with Germany.

"The second break in the lines came last night," he continued. "They have been going along gathering the largest campaign fund ever known in the history of government in all the world. No one ever dreamed of getting such a sum."

Governor Cox stated that Will Hays, Republican national chairman had denied the charges of a \$15,000,000 fund and declared it would be only \$3,000,000 while a few days later the governor said Fred W. Upham, Republican treasurer, "multiplied Mr. Hays by two and one half times" by stating that the fund would be \$7,000,000.

Multiplication Justified. "In my Pittsburgh speech," he added, "I have demonstrated to the satisfaction of every unprejudiced voter that we were justified in multiplying Mr. Upham's figures by two."

"I repeat that the Republican fund—the corruption fund—will be not less than \$15,000,000. We will not attempt to match their dollars."

Governor Cox also commented on Mr. Upham's denial of his charges. After reading a statement from Mr. Upham that the \$3,145,000, contribution quota list presented at Pittsburgh was "phony" Governor Cox said. The senate committee can find out perfectly well who attended this meeting at which these lists were distributed by the Republican leaders. It is a matter that can be got at in a perfectly simple way.

Almost from the moment of arrival this afternoon, Governor Cox hammered Republican finances. He made four addresses and in all but one, that to soldier patients at the public health service tuberculosis hospital at Arlington, he denounced the Republican campaign.

He addressed a hotel meeting of the first voters' league the soldier boys, a Democratic ratification dinner at Savin Rock, a Long Island Sound shore resort and a public meeting at a theater tonight.

In all his addresses he urged the entrance of merica into the league of nations and to his audience at Savin Rock he made what his auditors regarded as a reference to the Irish question, the first of his campaign.

Gov. Cox says he has more "revelations" about the Republican campaign fund and that he will continue to put his finger on the "sore spot." Voters are not going to be greatly impressed by this continued harangue about "buying" the presidency. There are more than 110,000,000 people in this country and no party could raise a fund big enough to buy a majority of them, even if there were a disposition to do this very thing.

Fred E. Sterling, who is a candidate for Republican nomination for lieutenant governor, has made an excellent record as state treasurer. During his term of two years he turned into the public treasury more than \$600,000 of interest money. In his home city of Rockford he has long been a factor for good government and

his public and private record will both bear inspection.

There is many a true word spoken in jest, so the humorist-lecturer can be a real sermonizer. Strickland Gillilan yesterday presented his message with many a clever story. Frailties and fallacies were held up to view and the value of good sense and good cheer was emphasized. There is more than one way of sermonizing and a really clever humorist like Gillilan does an immense amount of good.

The chautauqua this year has encountered some bad weather. The state fair is in progress and there have been chautauqua events in nearby cities. Notwithstanding all these facts, the attendance this year has kept up in a remarkable way and furnishes proof of the genuine interest that Morgan county people have in their chautauqua enterprise.

There is interest but it is doubtful if the hundreds who enjoy the daily programs have any real understanding of the large amount of work that the directors have had in making the program arrangements.

AN EMPLOYMENT QUESTION

Labor with reason is keeping an eye on the railroads and wondering what will happen after September 1, when the lines are returned to private management. It has been rumored from time to time that very soon after September 1 thousands of men now in the employ of the railroads will be

laid off. If this be true, it is not surprising that labor leaders are concerned about the effect that this may have on the whole big question of employment.

LOOKING BACKWARD

It is probable that Mrs. Howard Wilson, state chairman of the Illinois Democratic Woman's Committee, is now loyally supporting Gov. Cox. But this is what Mrs. Wilson was quoted as saying at the National Democratic Convention:

"The women of this country want McAdoo, and two weeks after the campaign starts, if he is chosen, the relationship to Wilson will be forgotten."

"Cox cannot carry the vote of the women of America, who will make a moral issue of his candidacy. The wet interests, the Sullivan crowd from Chicago, the Tammany people, and the Taggart Indiana people never will put Cox over."

A WORTH WHILE MONUMENT

James Wilson, former secretary of agriculture, whose death has just been noted, left a record which constitutes a real monument to his name. Mr. Wilson, who was an Iowa, had been in charge of the agricultural experiment station there before assuming duties in the cabinet, where he served for 15 years under three presidents. He was known as a "real agriculturist" and his work in the cabinet was of a constructive kind. The efficiency of the department was increased and the big agricultural problems were considered in a practical way.

Mr. Wilson searched the world for grain that would give better growth in the parts of this country where agricultural development is most needed. So successful was this development work that millions of bushels were added to the total of grain production.

THE WORST DAYS ARE PAST

It is safe to say that, to many people, particularly among Americans, the after-effects of the war have been almost more difficult to endure than the war itself. The Christian Science Monitor then goes on to say to all such there will be peculiar gratification in the statement just made by a National City Bank expert, writing in The Americas, that the after-war crisis is already past, and that, in spite of all the unrest and the economic disturbances, the worst is already over. There is not much comfort to be drawn from the authoritative statement that the conditions following the close of the European war are only about the same that have followed all the other great wars of history. No doubt every generation that has had to endure such conditions has vowed to it, self that there should never be a recurrence of them. And people of today who read this banker's statement will be glad to know that expert observers feel confident that the world is once again on the upswing.

CONGRESS THE BARRIER TO DESPOTISM

The end of autocracy and the restoration of truly representative government—the end of one-man rule and return to government by law—is one of the most important issues of the present campaign, declares the Republican Publicity Association, thru its president, Johnathan Bourne, Jr., in the following statement issued today:

"By its record during the past seven years the Democratic party has made itself the advocate of autocracy. Whatever may have been its pretensions, it has in practical effect made the executive the dictator over the legislative branch of the government so far as lay within its power. While the Democratic party had control of Congress, Congress was utterly subservient. Practically all governing power rested with the president."

"Not only the Republican platform but the speech of acceptance of the Republican nominee for president, pledges the Republican party, if given an opportunity, to restore the government established by the Constitution. The Democratic platform endorses the Wilson administration without qualification and the Democratic candidates seek every opportunity to

denounce the legislative branch of the government for the exercise of its sound judgment in the performance of its Constitutional functions.

"In his speech of acceptance, Franklin Roosevelt complained because 'it is upon Congress that every executive department must wait.' The only inference from that statement is that Mr. Roosevelt would not have the executive departments wait for the action of congress. When the executive departments make demands for appropriations or for increased powers, or endeavor to commit this government to international undertakings, Mr. Roosevelt would have the Congress act immediately and pass the legislation the executive departments demand. Deliberation requires investigation and discussion. Investigation and discussion require time. If there is to be immediate action then must be acquiescence without either investigation or deliberation. Mr. Roosevelt's policy means nothing more nor less than the subservience of the legislative branch of the government."

Rippling Rhymes By Wait Mason

TRANSIENTS.

We act as though we planned to stay on earth for countless years, but soon we'll have to move away to some uncharted spheres. A little while we charge around and put up ice and grass, then to the village planting ground in solemn state we pass. And there till time is done we'll wait, and no emotions heed; so what's the good of all our hate our envy and our greed? The evil thought corrupts the mind and turns the blood to bile; so let our thoughts be always kind—we're here so short a while! Bad passions spoil this world of ours and make the spirit sick; far better deck a foe with flowers than soak him with a brick. If there's a neighbor you detest, and whom you'd gladly slay, admit forgiveness to your breast, and send him a bouquet. All bitterness is a mistake; try kindness instead; for any morning you may awake to find that you are dead. Each evening when I go to rest I spring a prayerful spell for those by whom I've traduced, who for me have hated feel. For I would hate to die tonight and in the silence start across the darkness, to the light, with malice in my heart.

LABORATORIES PLANNED FOR ILLINOIS COLLEGE

Fire Damage Makes Temporary Quarters in Gymnasium and Whipple Building Necessary.

Trustees of Illinois college at a meeting yesterday authorized President Rammelkamp to take immediate steps to arrange temporary laboratories.

When Sturtevant hall was damaged by fire recently, both the chemical and biological laboratories were destroyed. According to a plan outlined, President Rammelkamp will have the upper floor of the gymnasium fitted up for chemical laboratory and upper floor of the Whipple academy building for the biological laboratory.

The chemical department will be in readiness not later than two weeks after college opens Sept. 21 while the biological laboratory can be equipped by the opening date. Prof. Leavenworth who is the head of the chemistry department, is already in the city and will take charge of the equipment work.

The trustees also authorized the employment of an architect looking toward plans for the early restoration of the Sturtevant building.

TRIXIE IS DEAD

Trixie, the fox terrier dog owned by William Hehl, is dead. The animal was struck by an automobile in West State street, near the Priest garage a few days ago. He managed to drag himself onto the boulevard where he expired.

Trixie was a familiar figure on the streets for many years as he followed Mr. Hehl about everywhere. He used to board a street car and ride out to Mr. Hehl's home in South Jacksonville and board the car and come down town. All of the street car men knew the dog and stopped to let him on and off the car.

The dog was about 14 years old and it is needless to say Mr. Hehl misses him greatly.

At 1:30 Col. L. L. Seely called the first hog into the ring, and then there was a pause to enable W. S. Corsa further explain the objects of this the keynote sale of the Illinois Berkshire breeders. The sale was snappy, but there were no record breaking prices. Dr. A. C. Edwards served as clerk.

NO FORMAL PROGRAM AT ROTARY LUNCHEON

Change in Program Friday Noon
—Various Matters of Business Given Attention.

There was no formal program at the luncheon of the Rotary club, Friday. Vice President Riley presided and explained that Frank L. Mulholland, who was expected to speak, will not reach Jacksonville today. Strickland W. Gilliam, who had also been invited to the luncheon, was also unable to be present as his train was late and he did not reach Jacksonville until after 1 o'clock.

The chairman presented the newly elected associate members, Ed Spink and Ben O. Roodhouse, and both spoke briefly.

John S. Hackett of the building committee in charge of the club house at Meredosia Bay, made a brief report and some other matters of business were given attention. Secretary Spink read a letter from the state secretary making inquiry as to how many members of the club plan to attend the international meeting of Rotary clubs to be held next June in Edinburgh. Altho that event is nine months in the future it is necessary to make the transportation arrangements now.

A steamer is to be chartered to take Rotarians from the U. S. over to the convention. Each club is entitled to one delegate but other members may attend by making the necessary arrangements in advance. It is probable that one representative of the Jacksonville club will attend.

So many cases of Rheumatism come today from a tiny disease germ that infests the blood, that physicians are beginning to realize that this source of the disease is becoming quite prevalent. Of course a disease that has its

MISKE PUT ON SNAPPY EXHIBITION

BENTON HARTZOG, Mich. Aug. 27.—Jack Dempsey and Billy Miske varied their attack in training today for their championship contest a week from Monday. The champion gave his three sparring partners a severe pummeling in the body, while Miske, the challenger, attempted mainly to gain speed.

Spectators at the Miske camp were given a snappy exhibition when the challenger went two speedy rounds with Johnny Tilman, a Minneapolis welter weight. Tilman landed frequently with a left to the face but his principal asset, and something which Miske apparently needed was fast footwork.

Dempsey also boxed six rounds and from his work out it appeared he hopes to defeat Miske by mid-section assaults.

Dempsey was eager for work today and rest periods between rounds were limited to thirty seconds instead of one minute.

FROM THE FIELD TO BISCUITS IN 55 MINUTES

Chapman, Kan. — Transformation of wheat from standing grain to hot biscuits in 55 minutes is a record established here recently by Harry Ruff, head of a local milling company. He drove into a field where a farmer was harvesting wheat with a harvester-thresher which cuts and threshes the grain in one operation and took two bushels of wheat. This he rushed to the mill where it was ground immediately, then took the flour, home and Mrs. Huff made biscuits.

From the time the grain was cut to the first bite of biscuit was 55 minutes less than an hour, including 32 minutes spent on the road.

Daily Market Report

MARKET PRICES

ADVANCE FRIDAY

CHICAGO, Aug. 27.—The strength in wheat and advance in hogs were greatly responsible today for all markets here ascending. At the finish, wheat was up 2 1/2 to 3 1/2 over yesterday's close with December 2 3/4 to 2 3/8; 1921, 7 1/2 to 7 1/4; 1922, 5 1/2 to 5 1/4; and provisions were 5c to 5 1/2 higher.

Free buying of December wheat credited to eastern and southern western shorts sent prices upward. Offerings were light early but increased materially on the bulge and part of the upturn was lost. News on wheat has been rather bullish. There were reports of 1,000,000 bushels being sold at the seaboard overnight and France was said to have diverted 45 cargoes to England and would replace them elsewhere. Corn was firm in sympathy with wheat but toward the finish it became unsettled. The announcement of the federal reserve bank that the crest of money stringency had passed, served to temper bearish ideas, inasmuch as the financial situation has been one of the selling motives in grain.

THE BEAUMANOIR BAND.

A delightful feature of the chautauqua season has been the work and presence of the Beaumanoir band of Decatur. This organization is indeed unique. Its membership is entirely within commandery of Knights Templar at Decatur, while most of the gentlemen belong to the shrine at Springfield. There are forty-eight members all told and it is an organization formed and maintained by gentlemen for the love of music. Each man buys the instrument he uses and the band does not playing for money as a rule their visit here being a compliment to Manager Cobb. Occasionally they go to Chicago and turn out when they care to do so but for money.

The leader, Arthur W. Shade, is also a member of the commandery and serves without salary. He is a graduate of the great Wilson band leader and from the work of the organization here it is needless to say that the gentleman is a person of unusual attainments and has a fine lot of men with whom to deal. The local, Hospitaller commandery adorned each one of the visitors with a beautiful carnation of fraternal courtesy.

Miss Walters, the vocal soloist, is also a Decatur resident and a lady of fine attainments and ability and she, as well as the fine band, has been most cordially received by the people of the city. They will all be welcome whenever they appear in Jacksonville.

CHAUTAUQUA NEARS THE CLOSING DAY

FINE PROGRAM GIVEN FOR FRIDAY AUDIENCES.

Strickland W. Gillilan Is Both Humorist and Philosopher—Delivered Two Fine Lectures—Beaumanoir Band Added to Reputation Already Gained.

As the chautauqua nears the close of the 1920 season the interest does not wane. The weather was ideal yesterday and the attendance increased. The Beaumanoir band gave three concert programs during the day. This is indeed a splendid musical organization and the director provides programs which preserve a balance between classical and popular music which fits in nicely with the wishes and tastes of the people.

Strickland W. Gillilan was the lecturer of the day and talked both afternoon and evening. This day's events, as usual closed with a motion picture.

It was Morgan county farm bureau day at the chautauqua and while no formal program was carried out, there were a great many members of the bureau in attendance and a number of informal conferences were held. Directors of the bureau also held a business session.

Well Known Humorist.
Mr. Gillilan, is one of the best known platform humorists and writers of the day. He is an Ohioan and after finishing at the university of that state, entered newspaper work. He was a reporter on various Ohio papers, still later on the staff of a Los Angeles publication and the Chicago Daily News. His name frequently appears in Judge and other well known publications devoted to wit and humor. For ten years or more he has devoted some time to the lecture platform.

Mr. Gillilan does more than amuse, for intermingled with the humorous stories are bits of life philosophy that inspire. He said that he once tried to preach a sermon and that when he concluded the choir promptly sang, "Hallelujah, 'Tis Done." Nevertheless he gives sentence sermons which are perhaps more effective than many that are drawn out to painful length. He believes that gloom is sin and that some people love to wallow in it. "There is no relationship between religion and gloom," said the speaker. "Real religion means joy. Then there is fear. It should have no place in life. The fact is fear and intelligence never work in the same mind."

The Wisdom of Youth.

The lecturer touched on many of the human frailties and said that he had never met anybody who had more sense than he needed. "A fool," he said, "is the only person who is free from responsibility. We are all of us wise when we are young. I remember lying awake many a night wondering what would happen to the world if I should die. But we get over some of the spirit as the years pass by, and the older we get the less sure we are about anything. If you can't recall some very foolish thing that you have done, well, you are still mighty foolish."

Every little while Mr. Gillilan recited a poem from his own writings and the audience found "Baby Bye," "Sleep, Little Sweetheart," "The Family Group Picture," and "Me, Pa, and Mother" quaint bits of philosophy revealing a tender heart and a thoughtful spirit. They are verses very much after the James Whitcomb Riley type. So the audience was pleased to hear Mr. Gillilan's statement that he is to come back some time this winter to make a talk at Brown's Business College.

A Great Band.
It is not too much to say that the Beaumanoir band is one of the best organizations that has ever been heard at the chautauqua. The programs that Director Shade gives show the real musicianly worth of the organization. The band was secured by direct arrangement and not thru a chautauqua bureau and the directors certainly took fortunate action.

Today's program is strong. The Crawford Adams Co., will give two concert programs and Alice Lewis Shrode child entertainer, will appear twice. Both attractions are known to chautauqua patrons. INJURED BOY A FORMER

RESIDENT OF THIS CITY
John Schwarberg, nine year old son of Mr. and Mrs. Edward Schwarberg, formerly of this city, met with serious injury as the result of an automobile accident Thursday in Springfield. The boy with his parents was returning from the state fair and when near the fair grounds the child was knocked down and run over by an automobile. He was taken at once to a hospital and a message received by friends of the family in this city states that there is a fair chance for recovery.

The family formerly resided on South Clay avenue in this city, Mr. Schwarberg being an employee of Hall Bros., and later of a local garage.

A friend induced Mr. Campbell to draw a bucket and take a drink from it and while he was in the act, an opportune instant, the friend snapped his kodak and secured a fine picture which he subsequently had enlarged making a fine piece of work.
